

Amendments to the Specification:

Please amend the paragraph beginning on line 13, of page 10 as follows:

In an embodiment, pump ~~60~~⁶⁰ may be activated by trigger 114. Operation of trigger 114 may pump a fluid from liquid dispenser 56 through tube 58A, pump 60, and tube 58B to port 57. Port 57 may be located at the top of holder 24. Distribution of the fluid in pad 20 from port 57 may be promoted by gravity.
